

# Introducing the Gravie ICHRA Plan Window Shopper

## Smarter plan shopping starts here.

Gravie's new ICHRA Plan Window Shopper is a self-service tool designed to help individuals explore health plan options available to them through an ICHRA benefit — before they enroll.

Whether your clients are first-time enrollees or seasoned ICHRA participants, this intuitive experience allows users to browse, compare, and understand individual health plan options based on where they live and what they need.

## Search and shop with confidence.

The ICHRA Plan Window Shopper makes it easy to guide your clients through plan exploration. Use it in sales conversations, during onboarding, or ahead of open enrollment.

### Key features:

- **Nationwide access:** Explore over 340 carriers and 8,800+ health plans from across the country.
- **Location-based browsing:** Enter a ZIP code and basic details to see market-specific plan options.
- **Real-time plan data:** Access state, federal exchange and off-exchange marketplace data, updated in real time.
- **Detailed plan views:** See key plan details, including care services, prescription drug coverage, benefits summaries, and formulary (Rx) lists.
- **Side-by-side comparisons:** Compare multiple plans to find the best fit for individuals and their dependents.

*No credentials. No complexity.*

### Get started

*Give your clients a jump on open enrollment.*
