Important Questions	Answers	Why This Matters:
What is the overall deductible?	**In-Network (INN):** $9,200 Individual $18,400 Family **Out-of-Network (OON):** $10,000 Individual $20,000 Family	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible. (The individual deductibles are embedded within the family deductible.) **NOTE:** The deductible and the OOPM (described below) are the same amount. However, not all cost sharing amounts count toward both. Copayments do not apply to the deductible, but they do apply to the OOPM. This means it is possible to reach your OOPM through copayment alone. Once the OOPM is met, the plan pays 100% of in-network covered services for the remainder of the plan year even if your deductible has not been met.
Are there services covered before you meet your deductible?	Yes. In-network preventive services, office visits, certain types of labs/imaging, urgent care visits, and Tier 1 generic prescription drugs are covered at no charge before the deductible.	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/.
Are there other deductibles for specific services?	No.	You don't have to meet deductibles for specific services.
What is the out-of-pocket limit (OOPM) for this plan?	**In-Network (INN):** $9,200 Individual $18,400 Family **Out-of-Network (OON):** N/A - There is no Out-of-Network OOPM.	The out-of-pocket limit (OOPM) is the most you could pay in a year for covered services. If you have other family members on this plan, they have to meet their own OOPMs until the overall family OOPM has been met. The most a family will pay in a plan year is the family OOPM. (The individual OOPMs are embedded within the family OOPM.) There is no out-of-network out-of-pocket limit (OOPM).

Important Questions	Answers	Why This Matters:
What is not included in the out-of-pocket limit (OOPM)?	Premiums, balance-billing charges, and health care this plan doesn't cover, cost-sharing for SaveOn specialty prescription drugs when opting out of the program.	Even though you pay these expenses, they don't count toward the out-of-pocket limit.
Will you pay less if you use a network provider?	Yes. See www.cigna.com or call Gravie Care® at 833.202.5930 for a list of network providers	This plan uses a provider network. You will pay less if you use a provider in the plan's network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist?	No.	You can see the specialist you choose without a referral.

All copayment and coinsurance costs shown in this chart are after your deductible has been met, if the deductible applies.
